

## Come See ASDQMS at the PowerPlex 2012 User Conference!

Source: Advanced Systems & Designs, Inc. (ASDQMS)

Dated: May 10, 2012

ASDQMS will be an exhibitor at Plex Systems' PowerPlex 2012 user conference in Indianapolis.

Advanced Systems & Designs, Inc. (ASDQMS) is taking its partnership with Plex Systems to another level. To demonstrate the seamless relationship between Plex Online Software and ASDQMS hardware, ASDQMS will be an exhibitor at the PowerPlex 2012 User Conference!

Plex Online Software as a Service (SaaS) ERP has a global reach; the Cloud ERP system connects and manages the entire manufacturing process for organizations in North America and their global subsidiaries. Plex Online manufacturing ERP software provides unparalleled coverage and access to operational intelligence. It enables managers to make decisions based on real-time data, which leads to continuous improvement and lean management. The ASDQMS SmartCable USB Keyboard and GageMux USB Keyboard enable users to connect their gages, regardless of the brand (Ono Sokki, CDI, Mahr, Starrett, etc.), and enter data readings directly into the Plex Software, as if it was entered manually via keyboard.

The PowerPlex 2012 User Conference is May 14-16 at the Indianapolis Marriott Downtown. During PowerPlex 2012, over 800 people from all sides of the industry – Plex Online partners, customers, and technology experts – will come together to celebrate the remarkable results successful organizations achieve in the areas of streamlined production, improved quality, reduced costs and more. Conference attendees will be able to connect and collaborate with the Plex Online Community and preview new technology, functions and capabilities.

As an exhibitor at PowerPlex 2012, ASDQMS will be showcasing how to simply and cost effectively streamline your data collection process in conjunction with Plex Online software. We are excited about this opportunity to meet new people and reconnect with customers face to face. If you're planning on attending PowerPlex 2012, be sure to stop by the ASDQMS booth to say hi and check out our products and how well they work with Plex Online Software!

ASDQMS (Advanced Systems & Designs, Inc.) and its 25 years experience in data-collection application and integration can help you eliminate the high cost of inconsistent quality by controlling your shop floor with SPC Software, Gage interfaces, Genesis Roving Data Collectors, Wireless Data Transfer and Gage Cables. Contact one of our consulting engineers, right now, to find out how ASDQMS can help your company. Contact the corporate offices at 248-370-9919.
