

Why Reinvent the Wheel .. Let ASDQMS Private Label Our Products For You!

Source: Advanced Systems & Designs, Inc. (ASDQMS)

Dated: Sep 06, 2011

Avoid the time, money and risk involved in updating your outdated gage interface or SPC data collection system and creating new products – ASDQMS can customize and private label our products for you so you can go to market immediately!

Are you looking for specialized and individualized solutions for your data collection problems? Do you have an outdated product that you're looking to update or reinvent but don't want to spend the time and money involved with R&D (research and development)? Don't reinvent the wheel yourself – let Advanced Systems & Designs, Inc. (ASDQMS) design, build, and customize the products you need for you!

<http://www.spcanywhere.com>

In addition to being dedicated to being on the cutting edge of the technological front for all of our products, ASDQMS is also dedicated to our customers' unique needs – product customization has always been a core service of ASDQMS. We can provide specialized gage interfaces, wireless, Bluetooth, Mitutoyo UWAVE, serial, USB and USB Keyboard solutions and even private label them for you. We take the risk, time, and money involved in product development out of the equation; all you have to do is sell to an existing market!

With ASDQMS's extensive experience and expertise in gage protocols and convention, we have developed OEM products for a wide variety of industries, including the automotive, aerospace, and food industries, and even manufacturers of electronic gages. Yours could be next!

ASDQMS can even offer custom variations of our standard products with as low as 10 pieces. Need a different color, or custom software features? No problem! These custom changes can be engineered quickly and economically. In addition, we offer OEM private labeling, from a simple label change to a completely new label, case color, manuals, and packaging. Every single one of your needs can truly be accommodated with ASDQMS, from the engineering down to the aesthetics.

While getting the custom solutions you and your industry need, you are also doing your part in the Greening of America – all of our products are designed to be economical AND environmentally friendly (GREEN based). The new GageMux and SmartCable USB models include power saving modes as well as designs using GREEN manufacturing processes and components. We're trying to do our part in saving this planet for our children, down to your customized data collection solutions!
