The Best In Spc Software

ASDQMS releases its latest version of SPC1+ Enterprise data collection and analysis software. New features include interfaces to GageMux & SmartCable USB Gage Interfaces, color coded charts, store data in Microsoft SQL databases, real-time spc alarms

ASD has done it again. For over 25 years they have been bringing you software on the cutting

edge of technology and the newest version of SPC1+ Enterprise Professional is no exception.

One of the newest features includes Real-Time feedback with a color-coded display. Know, at a

glance, if everything is still within specifications and the optional large display options makes the

data legible from yards away. Besides the quick color recognition cues, each network license is

concurrent-use and includes controlled access to nearly every feature in the SPC Software.

Customize the interface by re-labeling branches, menus and dialog boxes.

Additional Product Highlights:

-User-friendly centralized administrator tools
-Import shop-floor roving data
-Create user defined formulas based on data entry characteristics
-Charts & Analyses, X-Bar range/sigma, Run, C,U,Np,P, Process monitoring,
 Process Capability, and Box-Wisker
-Standardized Microsoft Access & SQL Databases
-Microsoft Vista compliant

ASD will help you Eliminate the High Cost of Inconsistent Quality by controlling your shop floor

with SPC Software, Gage interfaces, Genesis Roving Data Collectors, Wireless Data Transfer

and Gage Cables.   We will reduce waste and increase productivity.   With over 25 years

experience in data-collection applications and integration you can believe in ASD and our

commitment to quality.
